- 16.40 Enzo Mercuri, Principal of ICS “Cesare Chiominto” of Cori: workshop activity with students
- 16.45 Michele Trimarchi: *Tools for Culture*

At the end we will go towards the Natural Monument Lago di Giulianello which is about 4 km away.

At the lake, “the women of Giulianello” will sing the Natural Monument Lago di Giulianello: a walk along the shores of the lake accompanied by the songs in hendecasyllables in the local dialect to celebrate the cultural traditions, the stories and the imaginations of the millenary pastoral community of the area.

This immaterial sonorous heritage keeps alive the ties with the past of an enchanting territory little known to the tourists, a path gifted with a timeless beauty, only in small part changed by man and largely still wild, that extends through the Apennines (Lepini Mountains, and Albani Hills) and the hills, with breathless panoramas of the Mediterranean Sea and the Pontine Islands.

While walking and singing, the women will teach the invitees and the participants how to gather edible wild herbs: it will be an occasion to discover the legacy of a community that intertwines knowledge of woods, pastoralism, and agriculture into one cultural, economical, and emotional resource .
